What and Why Strategy?

- A plan, method, or series of maneuvers or stratagems for obtaining a specific goal or result. It helps you find the result you seek:
- If you don't know where you're going, it really doesn't matter which path you take
- If you don't know where you're going, you probably won't even know if you've arrived
- If you don't know where you're going, no matter where you are...you're there!
- If you don't know where you are, you probably can't chart a course to where you want to go

National Security Lexicon

- **National Security Strategy**
- **National Security Policy**
- **Development Strategy**
- **Human Security Strategy**
- **NSS/P *IMPLEMENTATION***

Defining National Security

- **Security is a collective good:**
 - Local, national, sub-regional, regional and global dimensions
 - “Localizing” consequences of failed security no longer a feasible alternative
- **Not divisible into external and internal domains: domestic and external security are inextricably linked; *threats and challenges transcend borders***
- **Nation States are no longer the only or necessarily the primary actors**
 - Role of International Organizations – UN, AU, SADC
 - Role of non-state actors
 - Role of “Donors.” external powers, and neighboring states

National Security Re-defined

- **FROM:**
 - Traditional *STATE SECURITY*
 - State-centric
 - Focused on regime security and state survival
 - Emphasis on external (neighboring state) threats
 - Predominately military and Defense
- **TO:**
 - *HUMAN SECURITY*
 - Citizen-centric
 - Community-based
 - Emphasis on internal challenges (crime, local conflict, violent extremism, lack of development, poor governance, corruption)
 - Genuinely “whole-of-government” with private sector, civil society, and local political stakeholders

Elements of the Security Sector

Non-state Actors

Rebels
Milicias
Gangs
Criminal orgs.
Cartels
Private security companies

Armed and Public Security Forces

Police/Military
Paramilitary
Border security
Coast guards
Intelligence community
Customs agents

Civil Management/ Oversight Bodies

Executive
Civilian ministries
Legislatures
Justice system
Municipal and district governments/councils

Other Actors

Donors
Intl. Financial
Institutions
Neighbors
Regional orgs.

Civil Society

Media
Academia
Civic groups
Think tanks
Business communities

What Strategy Does

(or what its supposed to do)

- Calculated relationship among:
 - Ends (Objectives)
 - Ways (Concepts)
 - Means (Resources)
- Dynamic
 - Multiple players ; Proactive - Anticipatory
 - Non-linear
- Art more than a science – It is NOT a plan
- If you focus on MEANS exclusively you are not following the right approach

***ENDS MATTER – and at
the Strategic Level,
ENDS MATTER MOST***

Strategy – A Model

Relating Ends, Ways & Means

imbalance = risk

**Objectives
(Ends)**

**Concepts
(Ways)**

**Resources
(Means)**

National Interests and National Strategy/Policy

- National Security Strategy/Policy Objectives (ENDS) identify *WHAT* we care about, BUT-
- National interests (informed by national values) explain *WHY* we care, and
- National Interest “Intensity” defines *HOW MUCH* we care:
 - Vital (survival of the State is at issue)
 - Important
 - Peripheral
- National Security Strategy/Policy *ENDS* are derived from analyzing (sometimes competing) national interests, and their relative priorities

Strategy Formulation Model

Global Environment (Forces & Trends)

- Alliances & Coalitions
- Competing Values
- Economic Conditions
- Globalization
- Information Revolution
- International Law
- International Organizations
- Non-State Actors
- Threats: Conventional and Transnational
- WMD

National Purpose
(Enduring Beliefs, Culture, Ethics and Values)

National Interests

Grand Strategy/Strategic Vision

National Policy

Strategy Formulation Process

Feasibility, Suitability, Acceptability

Risk Assessment

STRATEGY

Monitor for Success, Failure, or Modification

Domestic Environment (Forces & Trends)

- Federal system of government
- Congress
- Bureaucracy
- Judiciary
- Interest Groups
- Economic conditions
- Social needs
- Electoral politics
- The media
- Public opinion
- National style, self-image
- Presidential style

The Big Questions

(Crafting the Strategy)

- **Who leads the process?**
 - Typically executive branch, but who? President? Chief of Cabinet? Minister of Defense?
- **Who are [participating] stakeholders and the intended audiences?**
 - The public?
 - The executive and/or legislative branch?
 - External partners?
 - Potential adversaries?
- **What is the drafting process?**
- **Who approves, and how?**
- ***Who funds? Is resourcing part of the strategy or part of implementation?***

NSS/P Examples: United States

United States: “National Security Strategy” (1989-2010)

- Externally and State (NOT human security) focused**
- Required by law (Goldwaters-Nichols Act)**
- Produced by the Executive Office of the President (NOT whole-of-government)**
- No public consultation or legislative branch participation**
- Directive in nature, but lacking “force of law”**
- Audience and intended use varies with Administration**
- Does not incorporate funding processes or guidance (e.g., no “means” component)**

NSS/P Examples: South Africa

South Africa: “White Paper on National Defense for the Republic of South Africa: Defense in a Democracy” (1996)

- Developed by Ministry of Defense (not “whole-of-government”)**
- Internally focused, with significant human security content**
- Focused on supporting transition to Black Majority Rule**
- Collaborative process involving both Parliament and the Executive Branch**
- Extensive public consultation informed final draft**
- No funding component, but involvement of Parliament offered connection to means**

NSS/P Examples: France

France: “Defense and National Security” (2007)

- Both externally and internally focused
- Combines human security and state security
- Produced by an independent Commission appointed by and answering directly to the President
- A “whole-of-government” process, involving all elements of the security sector
- Included broad public participation in a robust consultative process (but no formal mechanism for incorporating input)
- Clearly directive in nature, with specific goals and benchmarks
- No participation by legislative branch
- Informs funding input by executive branch to Parliament, but no formal connection to means

NSS/P Examples: Liberia

- **Liberia: “150 Day Action Plan” (2006)**
 - Internally focused and Human security-centric
 - Produced by the Office of the President with no significant consultation outside the executive mansion
 - Directive in nature
 - Provided critical priorities and guidance to the newly constituted Sirleaf-Johnson Administration
 - No connection to funding or means (which were donor-driven)
- **Leads to Liberia: “Poverty Reduction Strategy” (2007)**
 - Human security-centric, but with state security elements
 - Whole-of-government “Steering Committee” under authority of the President
 - Embraced robust consultation with public, legislature, and donors
- **Leads to Liberia “National Security Strategy” (2008)**

The Big Questions

(Implementing the Strategy)

- **Who leads implementation?**
 - Typically executive branch, but who? President? Chief of Cabinet? Minister of Defense?
 - How are critical (ie, crisis response) decisions generated and implemented?
- **How are implementing stakeholders incorporated in the implementation process?**
 - Police, military, other services?
 - Governance bodies – local, intermediate, national?
 - External partners?
 - Non-state actors?
- **Who provides oversight, accountability and, if necessary, adjustment to the strategy?**
- **How are resources allocated and controlled?**
